

# DIY Ninja Elf

First, fold your pipe cleaner in half.

Thread your bead onto the pipe cleaner, leaving some of the bent end above the head. This will be your ninja elf's hat.

Fold each end of the pipe cleaner to create your ninja elf's arms.

Twist the two strands of the pipe cleaner together. This creates your ninja elf's body. Make sure you leave pipe cleaner ends for legs!

Twist the loops you made on the sides in step 3 to create more defined arms.

Loop in the ends to create feet. Use your ultra fine point Sharpie pen to add on a face.

Enjoy playing with your ninja elf!
